## **Local Youth Actions for the SDGs and Beyond**

The theme of this year's IYD, *Local Youth Actions for the SDGs and Beyond*, highlights the unique role of youth in translating global ambitions into community-driven realities. As development partners work to translate and implement the global goals within specific local contexts, aligning them with community needs while maintaining consistency with national and international commitments, young people are critical partners. They bring creativity, insight, and deep community ties that help bridge the gap between policy and practice. With over 65 per cent of SDG targets linked to local governance, youth engagement is not a luxury—it is a necessity.
